

USE: from the first months to 12 years

Calma

DROPS

Food supplement with plant extracts.

RELAXATION AND PEACEFULNESS FOR WELL-BALANCED GROWTH • FROM THE FIRST MONTHS OF LIFE

INGREDIENTS: demineralised water, glycerol, Passion flower aerial parts (*Passiflora incarnata*) dry extract, Lemon-balm leaves (*Melissa officinalis*) dry extract, Lemon-balm essential oil, preservative: potassium sorbate, acidifier: citric acid.

GLUTEN-FREE
COMPATIBLE WITH DIETS FOR CHILDREN WITH COELIAC DISEASE

Children often show signs of some forms of physical and mental restlessness, with outbursts of anger and prolonged crying, they are not willing to sleep, they have short periods of attention and concentration. It is believed that these disturbances are due to psychological reasons connected with the environment where the child lives, but in fact the causes are not completely known.

CALMA DROPS is a preparation obtained from plant raw materials, titrated and standardised, which come

from cultivations subject to rigorous quality controls, sapiently mixed with apple juice and fructose, indicated for improving and helping physiological relaxation during the day.

RECOMMENDED DOSE: 10-20 drops should be taken or more, as needed (according to the child weight). The drops can be taken as they are or if you want they can be diluted in water or another liquid.

Product notified to the Italian Ministry of Public Health
